

User manual

Model: U616

Brand: unnecto TM

Manufacture: TEM Mobile Limited

Specifications of Battery and Charger

Battery: Li-ion 3.7 V | 1400 mAh | 5.18 Wh

Max Charging Voltage: 4.2 V

Charger: Input: 100-240 VAC | 50/60 Hz | 150 mA

Output: DC 5.0 V | 700 mA

For Your Safety

Read these simple guidelines. Breaking the rules may be dangerous or illegal. Further detailed information is given in this manual.

1. Road Safety

Always keep your hands free to operate your vehicle while driving. Park your vehicle before using your phone.

2. Turning off your phone for air travel

10. Play Store

- Create or sign in an existing account for access to the Play Store.
- Play Store is used to download/update Applications to the phone.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ -Reorient or relocate the receiving antenna.
- ▶ -Increase the separation between the equipment and receiver.
- ▶ -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ -Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:

This 3G MOBILE PHONE meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: 3G MOBILE PHONE (FCC ID: 2ADR3U616) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 1.183W/kg and when properly worn on the body is 1.179W/kg. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

Legal Information

Use only batteries, chargers and enhancements approved by Unnecto for use with this device model. The use of any other types may invalidate any approval or warranty, and may be dangerous. See enclosed materials for manufacturer's product Limited Warranty and important user guide information. Contains Li-Ion battery. Dispose of batteries according to local regulations (e.g. recycling). Do not dispose of as household waste. This carton is partially made from recycled paper fibers and is recyclable when local recycling programs are in place.

WARNING: This device contains small parts. Keep the device and its accessories out of small children's reach. ©2017 Unnecto. All rights reserved.
